WEDNESDAY MORNING, DEC. 18, 1850.

Reoord of the Courts.

MONDAY, Dec. 16.

SUPREME COURT.—Present, Chief Justice Hastings, and Associate Justices Bennet and Lyons.

Ormsby, Harper & Co. vs. Presley Dunlap. Argued and submitted. S. Heydenfeldt for plaintiff, Kewen and Morrison for defendant.

R. Santiliani vs. Turney. Judgment below affirmed.

De Brier vs Minturn. Continued to next term.

Wm. Wiggins vs. G. C. Cook. Continued.

Brown vs. Matier. Argument opened by Wilson; to be continued to-day.

John B. Howell vs. Robt. W. Gray. Opinion by Justice Lyons. This case, from the moment of its inception to its appearance here, presents to view a curious anomaly. "It was commenced before the second Alcalde of Sonoma District, an officer whose jurisdiction was limited by law to causes in which the amount claimed was one hundred dollars or under. Plaintiff sued for $1047.50, and the second Alcalde rendered judgment against defendant for $1030.50. From this judgment an appeal was taken to the Court of First Instance. The Judge of the last-named tribunal assigned the cause for trial on the nineteenth day of April next ensuing, and afterwards, for a most novel reason divulged by the record, abridged the delay before granted, and without the consent of defendant, ordered the cause to be tried at an earlier date. An abortive attempt was made to try the cause on the day last named, but no judgment therein was rendered, and the case thus comes here for final adjudication. The whole proceedings are irregular. The Second Alcalda exceeded his jurisdiction, and the subsequent acts are an entire departure from all legal rules. Judgment of court below reversed."

On motion, —— Parburt, Wm. Wiggins and G. C. Cook, were admitted to practice in all the courts of the State.

CALENDER OF TO-DAY.—Fleming Amyx vs. Minturn. Alfred Mullot, et al., vs. Felix Bunard, respondent. The People, ex relatione, W. H. Huges vs. David Gillespie.

SUPERIOR COURT.—Before Judge Smith.

John H. Still vs. John W. Gregory.—This was an effort on behalf of the plaintiff, to hold the defendant responsible for sundry packages of newspapers, which the plaintiff alledged were forwarded to him from his agent in New York, by "Gregory's Express." They arrived by due course of steamer at this city, but the defendant, Gregory, failed and neglected to deliver to said plaintiff. The jury rendered a verdict for plaintiff of the sum of $380, less the freight, $100.

The case of Melhado vs. Crane & Rice, which was being tried on Friday last, before Judge Shattuck, occupied the attention of court to a late hour last evening.

TO-DAY'S CALENDER.—Franconi vs. Lelan and wife. Melhado et. al. vs. City of San Francisco. Smith et. al. vs, Gibbs et. al. Breed vs. Goodwin et. al. Gray vs. Palmer et. al. Wilson vs. Jones. Spicer vs. ship John Marshall. Scott vs. Folger.

RECORDER'S COURT.—Hon. F. Tilford, presiding.

The first case was Josse Kosson, chief of the Stanislaus tribe of Indians. He was brought up on a charge of disorderly conduct, and it appearing that he was very free in brandishing his knife and pistols, the Recorder fined him $50.

Under the charge of larceny the following persons were sent up:—William Houseman and Henry Cook, to District Court, bail fixed at $500; and to the Court of Sessions, John Davis, Thomas Hogarty, and David Clow, the bail of each fixed at $300.

The investigation of the same charge against several other persons, will be made to-day, no person appearing yesterday to claim the goods they were charged with having taken.

THE MINES.—A correspondent of the *Transcript*, writing from the vicinity of Auburn, North Fork of the American River, gives the following:

> "The character of the diggings in these lower hills is peculiar, and the quality of the gold taken out is also different from what I have seen elsewhere. The dirt that contains the gold varies from a mixture of broken quartz, sand and gravel, to the black wash from the hills, sometimes one and sometimes the other paying best. It is all underlaid, at a depth of from one to six feet, with a bed of rotten granite, which yields readily to the pick, but is of no value. The gold is very irregular and rough in form, of exceeding fineness and brighter than usual. There are spots which have been found to yield as high as two ounces per day to the man, with the rocker, but the usual returns are not more than from six to eight dollars.
>
> "With a long tom, that amount would probably be nearly doubled; but a sufficiency of water has not yet fallen to test its utility in saving such fine dust. These ravines are very numerous, but none are of great length, as they all head west of the Sacramento road, below Auburn, and run off laterally, emptying into the large ravine."

The people of the State of California to John Doe Chastelain and Richard Roe Ponvert, trading in the city and State of New York, under the firm and style of Chastelain and Ponvert, greeting:—You are hereby summoned to appear in the said District Court, for the county of San Francisco, on or before the 4th Monday of June, 1851, and answer the complaint of Francis Salmon and John S. Witness the Honorable Levi Parsons, Judge of said Court, at the Court House in the city of San Francisco, this 13th day of December, 1850.

JOHN E. ADDISON, Clerk.
By JAS. D. GALBRAITH, Dep'y Clerk.

In the District Court, 4th Judicial District, State of California, for the County of San Francisco—notice to defendants. BOARDING.

MRS. GRAHAM'S SELECT BOARDING House, corner of Broadway and Dupont streets, San Francisco.

Mrs. G. having enlarged her house since the grading and planking of Dupont street, is prepared to accommodate a much larger number of boarders than heretofore, and will endeavor to make the inmates of her house AT HOME.

☞ Gentlemen doing business down town will find this a pleasant location, the streets being graded and planked past the house. n15tf

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO WISH Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47½ varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New Surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen am wherenorth or east of us, in California; and the grain growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen now: The average summer heat is 75 to 80 degrees, with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer. We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and in mind. We have had but one death out of the immigration of 1846, an old gentleman who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law-abiding and a law-supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon, to the subscriber, in the south end of the city.

THE PEOPLE OF THE STATE OF California, District of the County of Santa Clara:

Jose De Arnaz *vs.* Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey.—Petition to foreclose mortgage, &c.

Whereas, *Jose De Arnaz* filed in this Court, on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date:

That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises, to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved, by affidavit, to the satisfaction of this Court that Emanuel Mangel is a nonresident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence, and decreed accordingly.

Mercantile Education.

There is no one subject connected with the general prosperity of the State, so important as a well-devised and thoroughly inculcated system of *mercantile education*. We can well remember when a knowledge of the more simple rules of arithmetic, a slight insight into the geographical situation of our country, and an ability to understand the relative value of any particular article on the shelf, the materials of which it is composed, and as to whether it was fabricated at Leeds or at Lowell, or received its final polish at Birmingham, Pittsburgh or at Sheffield, was all that was required; and those who were so fortunate as to be able to say, at a glance, when shown any new style of Mouselain de Laine, or some more substantial fabric, "*this* is cotton warp or woof, and *this* woolen or linen," as the case might be, possessed, in the acquisition of so much ability, a ready passport to the most lucrative employment. So desirable was this species of talent considered, that the possessor might safely arrogate to himself any degree of insolence, in the presence of his less informed associates or employers, without the fear of subjecting himself to more than a passing frown or a temporary reprimand.

Those were times when every man thought himself capable of being a "merchant." It mattered not whether he had been taught during his minority to hold the plough, to smite the anvil, or to tend the herd; he was equally fitted, when he should arrive at the proper age, to be a merchant, and he looked forward to that period as the one that should release him from what he considered little else than a species of juvenal servitude, to be terminated by a short clerkship in a country store, which was deemed alone sufficient to fit him for full communion with the city merchant and able to cope with him in the struggle for a successful passage down the tide of commerce, the shores of whose stream bears so many melancholy evidences of most disastrous shipwreck.

We do not underrate the importance of any profession or calling, when we place at the head of all, the well-informed, honest, upright and capable merchant, one who understands that the only guarantees of success are *practical* experience, industry and economy, enlarged and liberal views, and that can take advantage of any cause that may point, however remotely, to good or evil effects in the future.

It has been ascertained from reliable data, that in the city of Boston no fewer than ninety-seven out of every hundred of her merchants fail of success, either from inability to conduct their business profitably, or because of erroneous calculations which result in bankruptcy; and Boston, it will be borne in mind, is a city world-renowned for the credit of her merchants. What, then, would be the result of a similar investigation in other cities of the Union, where the go-ahead spirit is in every way more manifest? Can all this amount of pecuniary embarressment result from any other cause than the entire absence of every thing at all approximating to a *correct* and *thorough* Mercantile Education? We think not, and therefore desire; hile our State is yet in its infancy, to call the attention of our business men and merchants to this all-important subject.

If we wish our sons to become Lawyers, Doctors, or Divines, we subject them to a course of the severest discipline. If we design them for mechanics, we think a "seven years" servitude, accomponied by the closest mental and physical application, as time and energies well bestowed; but if we intend them *only* for merchants, no neglect on our part can furnish them with the least shadow of an excuse, should they fail of success, when they shall have "set up" for themselves.

How frequently does it happen, that the press is called upon to notice the failure of some house or firm which had, up to the hour of its suspension, exercised by the mere expression of its opinions, a controlling influence on the market, both at home and abroad; whose accounts, when investigated by the assignee, exhibit a most lamentable ignorance of every law which should be to them as familiar as "household words," and to the very ignorance of which, in nine cases out of ten, may the disaster be chargeable, which has overtaken them.

Let this subject be looked to in time, by those having the future interests of our State at heart, and we shall have less need for the exercise of our sympathies in behalf of those who are rendered homeless by their misfortunes.

Arrival of the Sarah Sands.

This splendid, though somewhat slow, sea-vessel, Capt. Washington Ilsley, arrived from Panama yesterday morning, which place she left on the 21st ult. She brings 70 passengers.

We are indebted to Mr. Geo. Howett, the gentlemanly Purser of the Sarah Sands, for a list of the passengers and the usual memoranda.

The Sarah Sands has made a very fair trip up, for her, being only 27 days, and brings a large amount of freight. She is now in the hands of the Pacific Mail Steamship Company. We cheerfully give place to the following card, signed by the cabin passengers on her voyageup:

We, the undersigned, cabin passengers per steam ship Sarah Sands, on her late trip from Panama to San Francisco, deem it to be a duty we owe the travelling public, to recommend this ship and her polite and efficient commander, Capt. Ilsley.

If a well-appointed and commodious vessel, polite and gentlemanly officers and a table unsurpassed for its luxuries, be objects of consideration, then does this ship stand "A, No. 1."

[Signed by the Cabin passengers.]

Panama Intelligence.—By a paper received by the Sarah Sands, from Panama, we learn that a man named Herman Gonzales, was killed by a gun-shot while out gunning in company with his brother-in-law, Wm. C. Hance, formerly proprietor of the New York Hotel. A post-mortem examination led to the conclusion that the wound could not have been inflicted by himself, and Mr. Hance had been arrested for killing Gonzales. An examination had not been held at the last accounts.

The bones of a man, supposed to be the son of Hon. Benj. Harding, of Ky., was found on the side of the mountain, just out of Panama. The bones were covered with clothes, and the appearance left no doubt but that he had been murdered. In the pocket of his frock-coat was a letter addressed to his father, giving an account of his journey to Panama.

Whig at Last!—For a long time past our evening cotemporary has shown streaks of whiggery as distinct as the sun at noonday, until it has at last acquired boldness sufficient to make the announcement, which it did last evening, "The *Evening Picayune* is now, and will be, hereafter, a *Whig paper*." So we are to battle with two Whig journals here, one sailing under neutrality colors in another section of the State, and the fourth to be established, without the *neutral* disguise, at Sacramento. However, the new comer into the Whig fold, enters with as cleanly an appearance, and with as much ability as any of them, and will run the race of ambition, probably, with as much success.

"The Oregonian."—The first number of the paper under this name, just started at Portland, Oregon, by Thos. J. Dryer, Esq., formerly of this city, reached us yesterday. The sheet is of good size, is well printed, and although it does not present the array of advertisements we should like to see, will no doubt be successful in the hands of its able and energetic proprietor. It proclaims itself Whig to the core—a fact it was unnecessary to blazon, so long as its present editor remains at the helm. He has our best wishes for pecuniary success.

Capt. Bull.—The physician attending on this gentleman, called on us yesterday morning to state that he has never himself felt in fear of his patient, but that for the safety of others in the "Hospital Brig," it was thought necessary to restrain him in the manner described by us in our article of Tuesday. With the appliances at his command, we can hardly see how any blame attaches to the resident physician of the brig, but that there is serious blame resting somewhere, need not be asserted.

New York Correspondence.—We received yesterday, per Sarah Sands, a file of New York papers, together with letters from our New York correspondent. Unfortunately, the package got on board a vessel on this side that has not shown herself a *very* fast sailer, and it is therefore of no use to us, the items of intelligence communicated having previously been made up from our exchanges. The Sarah Sands, although a fine vessel, will hardly answer for an *express* line.

Superb Jewelry.—We were shown yesterday a most magnificent lot of diamond rings, pins, brooches, and other jewelry, watches, &c., at Messrs. Hayes & Bailey's on Clay street. The whole, amounting in value to over $12,000, is to be disposed of by lottery on New Year's eve. Two silver pitches in the lot will form a beautiful prize of themselves.

☞ The New Englanders, as will be seen by a notice in another column, are to have a grand celebration, consisting of an oration, and a supper at Delmonico's, on the 23d inst., the anniversary of the "Fathers" happening to fall this year on Sunday. All who are of New England origin, may well feel proud of this first festival on the shores of the Pacific, in honor of the "Pilgrims."

☞ The slice of wedding cake received by us last evening, from the new-made bride, was really delicious. We wish her much joy on the occasion, and trust she will find leisure in her new sphere to charm us with the sweetness of her minstrelsy.

☞ The communication of "F" is unavoidably crowded out. It will appear to-morrow.

The Judiciary and the Herald.

Editors of the Pacific News:

The very able editorial in your paper of Friday last would, had it been anticipated, have prevented me from intruding my communication upon the attention of your readers. The object of that communication was to administer a rebuke to the *Herald* for the disorganizing doctrines advanced in its attack upon the Supreme Judicial tribunal of our State; to expose its shameless inconsistency, and to prove that that inconsistency was the result, not so much of mental weakness, as of moral depravity.

In answer to that communication the editor of the *Herald* attempts to raise new issues, to identify us with other interests than those we espoused; and by resorting to personal invective, to shield himself from the odium he so richly merits. But this ancient subterfuge of weakness shall not avail him. Our business was to hold up to abhorence the pernicious principles he avowed, and expose the base motives of their utterance. That our article has produced an abundant out-pouring of the billingsgate peculiar to the *Herald*, has not surprised us. Amid the turbid and foul current we can, however, here and there detect some indications, justifying the hope that an attempt to purify may not be wholly in vain. We hail, therefore, as an unexpected, though frank avowal, that "There are in every community unprincipled sycophants, who hug degradation to them as a warm garment; whose trade is to fawn, and flatter, and falsify the truth, to uphold every corruption and defend every wrong, and do the loathsome work their masters would not touch."

This confession, though to any one at all acquainted with the Herald or its editor, wholly unnecessary, may yet be thought like the criminal's plea of guilty, to entitle the offender to some mitigation of punishment. We would therefore be disposed to encourage this new-born candor were it not that the inveterate habits of the editor have led him to utter new libels which should not be passed over in silence. We will endeavor, however, to deal gently with the repentant. "The Judges," it is asserted, "from the indications around us, are seeking aid in their weakness from the unprincipled portion of the Press." To the intimation here so broadly given that the Judges are now applying, or have ever applied, to the *Herald* for its support, we give our emphatic denial; for we believe them to be too well acquainted with that paper and its editor to suppose any aid could be derived from what it somewhat unintelligibly calls its "*encomastic advocacy*." Could we believe the truth of the accusation, we should feel (to avail ourself once more of the *Herald's* felicitous expression) "indignantly regretful."

But had our object been to reform the *Herald*, in one respect we should have been compelled to acknowledge a failure—its ignorance and its conceit remain impregnable. To the modest announcement that it was preparing "an abstract of the law" which was to confound the wisdom of the Bench and the learning of the Bar, succeeds, on Saturday, the assertion that its editor "might with little difficulty know more law than all the Supreme Bench together."

As to the difficulty the editor would experience, as it depends upon an estimate of his capacity, he and ourselves might differ. But we willingly acquiese in the succeeding avowal that in no conceivable case will he ever be overstocked with learning. But enough of such folly and presumption.

If we have been instrumental in exposing to the animadversion of the wise and just in our community, the venal, selfish and incendiary tenets of a Public Press, our task is performed. In the discharge of this self-imposed duty, we have deemed it as unnecessary as it would be unbecoming, to extol the integrity or the ability of our Supreme Court. Their acts and decisions are matters of record, and open to the inspection of the world, and by these alone let them be judged.

Nor have we conceived it necessary to expose the details of moral pollution which prompted the attack that has been made upon that tribunal. Subsequent events may impose *this* task upon us. For the present, we trust that enough has been done to convince the conductor of the print alluded to, that there is a point beyond which it cannot go. Let it revolve in its little sphere, and do the "loathsome work its masters would not touch," but let it not stain, with its foul hands, the purity of the ermine, nor embark, even at the bidding of its masters, in selfish and guilty crusades against the institutions of our State. Vindicator.

Vaudevilles.—We understand that a company has just arrived from Paris, consisting of twelve persons, who intend giving a series of vaudeville entertainments in our city. The first takes place at the Jenny Lind Theatre, on Sunday evening next. The whole is under the management of Mademoiselle R'Acine, Aldalbert and Leonore, who are the principal performers, and who bring with them much experience in this line of stage business. The entertainment will no doubt be made one of superior merit, and well worthy of patronage, though we should greatly have preferred to have seen it take place upon any other evening than Sunday.

Latest from Valparaiso.—By a recent arrival we are put in possession of *El Commercio* of Valparaiso, up to the 26th Oct. There is no news of special importance. Large shipments of flour are making, mostly for this market. There were fifty-one arrivals in the harbor of Valparaiso since our last date, Oct. 9th; of which, seventeen vessels belonged to Chili, seventeen to the United States, and ten to England. Their names will be found under the shipping intelligence.

The Gold Hunter.—This vessel, for whose safety some fears have been entertained, arrived from Oregon yesterday morning, having been seven days in making the trip down. She experienced very heavy weather.

The Gold Hunter has been sold, wholly or in part, to a company in Portland, Oregon, and will in future run as a regular packet upon the Columbia river.

The Libel Suit.—The jury in the suit of Melhado *vs.* Crane & Rice, for libel, brought in a sealed verdict yesterday morning, assessing the damages at $2,000. Whether this is the end of the matter, so far as litigation is concerned, or whether the case is to be carried up, we have not learned. We presume, however, it will be further contended.

Thanks.—Adams & Co. put us under obligations for packages by the Sarah Sands.

Later from Oregon.

By the arrival of the steamer Gold Hunter, Lieut. Blunt, U. S. N., commander, we are in possession of Oregon papers to the 4th instant.

The Gold Hunter encountered very heavy weather in going and coming, and was seven days making the passage down. She proved herself, however, a capital sea-going vessel. Her list of passengers and memoranda will be found under the usual heads.

By this arrival we have the first number of the "*Oregonian*," the new whig paper established at Portland by Thomas J. Dryer, Esq., formerly connected with the *Courier*, of this city.

The Legislative Assembly of Oregon organized on the 2d inst., and upon calling the roll, the following members appeared and took their seats:

From Clackamas—Messrs. Simpson and Matlock.
Marion—Harding, Shaw, Parker.
Benton—Avery.
Polk—Holmes.
Washington—Wilcox, King.
Yam Hill—Payne, Gilmore.
Members absent—Messrs. Deady, Powers, St. Clair, Campbell, Allphin, Walters, Tharp.

The next morning the Assembly met and appointed the following officers:

Speaker of the House, Dr. Ralph Wilcox; Clerk, Asahel Bush; Assistant Clerk, B. Genois; Sergeant-at-arms, Wm. Holmes; Doorkeeper, Septimus Huelat.

For the Council, the following officers were elected:

Chairman, W. W. Buck; First Clerk, Geo. L. Curry; Assistant Clerk, James D. Turner; Sergeant-at-Arms, Heman Buck; Door Keeper, not elected.

The two Houses having completed their organization, the Governor was duly informed of their readiness to hear any suggestions he might have to make. At half past two o'clock, the Governor appeared and read his message to the two Houses, in joint assembly. It contains a variety of recommendatioms of a local nature, in regard to the affairs of the Territory. The Governor recommends an immediate organization of the militia, "the country's strong arm when danger presents itself;" urges upon the Legislature the establishment of roads throughout the territory, "so to connect the different sections of the country that they may be easier of access to each other," and also the opening of roads for the purpose of affording relief to immigrants, with the necessary trading posts, &c. He says:

"The great suffering endured this season, should not fail to impress you with its importance, and not leave it, as heretofore, to private charity. To connect Puget's Sound with the Columbia River, some point on the Willamette with the mouth of the Columbia, and the Willamette Valley with that of the Umpqua, are among those I would name for the present. Commissioners should be appointed to view, locate, and mark out the principal roads at the expense of the Territory, and the counties through which they pass required to keep them open, and in good repair."

The Governor says an accurate survey has been made of the mouth of the Columbia, and that it is found to be as safe for vessels to enter, by those well acquainted with the true channels, as the port of New York. He adds:

"I learn from the Collector's office that out of one hundred and seventeen vessels that have entered the mouth of the Columbia within the eighteen months intervening, from April 1849 to September 1850, there has been but two vessels that have met with accidents, only one of which was lost. Both accidents happened before the arrival of Captain White, the able and indefatigable Pilot at the mouth of the Columbia. The number of vessels entering and trading on the Columbia and the Willamette is rapidly increasing each month. And although I have been unable to obtain an accurate account of the number of vessels that have arrived in the last two months, I have been informed by those living near the mouth of the river, and others, that the increase is considerable over preceding months. We may reasonably expect, I think, farther appropriations by the General Government, for the erection of light-houses and other improvements."

The Governor invokes the earnest attention of the Legislature to the subject of education; recommends that an early determination be made in relation to the permanent location of the seat of government, stating that there is now $5000 in his hands for the erection of the public buildings, to which is to be added $40,000 appropriated by Congress. The Governor has nearly expended the $5000 granted by Congress for the purchase of a State Library, and properly fitted it up for the use of the Territory.

A writer in the Oregonian states that articles of Association have been drawn up for the Portland and Valley Railroad, with a capital of $500,000, and that within two weeks, nearly $400,000 were subscribed, mostly by persons along the route of the contemplated road. In railroading our Northern friends have got the start of California.

A ball was given to the officers of the Gold Hunter, in Portland, on the evening of the 4th inst.

☞ We are glad to see that a class of vessels hitherto rare in our waters, are entering the trade; we mean fore and aft schooners. The advantage of these over square rigged vessels is evident, for all purposes of coastwise and river navigation. They are more easily handled, require fewer men, and would make, probably, three voyages between here and San Francisco, to two of the latter. [Oregonian.

A man named George N. Williams died suddenly at Oregon City, of an apoplectic attack.

☞ On the 9th inst., was found, among some drift wood, near the shore of the Callapuiah River, about one and a half miles from Albany, Linn Co., part of the bones of a human body. It had decayed so much that its identification was impossible. There are some conjectures as to who it was. It is supposed he was drowned in attempting to cross the river. There was found near the body a part of an old box coat of brown cloth, a pair of shoes, parts of his pantaloons of coarse corduroy, In one of the coat pockets were found three razors, a tobacco box, and a small iron bolt. Two small purses were also found near the body, one containing seven dollars in silver, the other forty dollars in American gold coin, and nine dollars and fifty cents in gold dust. The money is in the hands of Mr. George Cline, Albany, Linn Co., O. T. [Spectator.

Ship Antelope for Panama.—We are requested to state that in consequence of the inclemency of the weather, this vessel will not leave until 10 o'clock this morning. A list of her passengers will be found under the appropriate head.

BY LAST NIGHT'S BOAT.

From Sacramento.

Freeman & Co. put us under obligations last night for Sacramento papers. They contain, however, very little of interest.

The newly elected officers were duly inducted on Monday evening, with appropriate speeches and other proceedings.

The *Times* learns that the prospects of the miners in Redding's Diggings are very discouraging.

According to a statement in the *Transcript*, the city has issued warrants to the amount of $142,128 05 for general purposes, and $75,173 70 on account of the Levee.

The Common Council are about increasing the number of the Police.

A severe storm commenced at Sacramento Monday morning. The *Transcript* says:

"Branches of trees were torn off all over the city. We have heard of one instance worthy of especial notice. The inmates of the crig "Crescent," now lying at our Levee, were startled from their slumbers by a sudden crash which occurred right in among them. It seems that en aged tree had not been able to withstand the storm, and fell directly across the vessel, striking the roof of the house on deck, and crushing one end of it to atoms. A part of the roof, we understand, struck in its descent the head-board of a bed where a gentleman by the name of Crossett was sleeping. This was a very narrow escape for him. And as for a certain popular auctioneer, the shock was so sudden, that the first thing he knew, he popped out of bed bodily, and was flat on his back upon the floor. It was a 'berry' mysterious affair, but he was not long 'going.'

We have not heard of any very serious damage having been done, although the storm was one of the heaviest we have had."

News from the San Joaquin Valley.

We learn from the Sonora *Herald* that J. N. Shafer, Esq., has been elected District Attorney for that district, composed of Tuolumne, Calaveras, Mariposa, and San Joaquin counties.

Maj. Anderson, the gentleman who was accidentally shot some three weeks since, at Sonora, is likely to recover.

On the adjournment of the District Court, a complimentary supper was given to Judge Creaner, of the Fifth Judicial District. Among the toasts given on the occasion, we find the following:

"Miss California,—Uncle Sam's youngest and fairest daughter, and the only one that he has not dowered sufficiently to begin house-keeping; may she always, as now, have spare change for her Father and Maiden Sisters."

The *Herald* says the Legislature will be about evenly divided, politically, but that the Democrats will have a small majority, though it very truthfully remarks, that the Democrats must put "some gentleman of decided talents and acknowledged reputation for U. S. Senator, or the Whigs will elect their man."

Shot by Indians.—Two Swedes and a German started out from Jamestown, last week, on a prospecting tour. Having travelled perhaps twenty miles, (in a direction east from Sonora, on the other side of the big river, as they described it,) probably between the branches of the Tuolumne, they kindled a fire for the night, and arranged themselves comfortably around it. About midnight, however, they were shot at by a party of Indians. One of the Swedes was killad and the other severely wounded in the head; the German escaped unhurt. [*Herald*.

The Weather.—For several days preceding Tuesday, we had rain in abundance, and a very chilly disagreeable state of the atmosphere. But since then it has been uncommonly cold. The ice was an inch thick on Tuesday night—the coldest night this season.

New Diggings in Sonora.—For a week or more the miners have been busily engaged in sinking holes in the Northern end of Sonora. Some have done exceedingly well; others are living in hope. The gold appears to lie in a narrow space, and to be connected with a quartz mountain that rises to the north east. Those who have been successful, have dug to a very great depth.—[Herald.

Murder and Arson at San Jose.

We have received from our regular correspondent at San Jose, the following:

San Jose, Dec. 17.

Editors of the Pacific News:

It becomes my painful duty to inform you of a most horrible murder, or series of murders, committed in this valley on Sunday evening last, on the persons of Bigley Smith, Esq., formerly of New Brunswick, N. J., Dr. Zarinsky, a Pole, and a young Englishman in the employ of Dr. Smith, whose name I could not learn, and was from Sydney, N. S. W.

What the circumstances were attending this wholesale massacre, can never be fully known, as the building in which it was committed, the residence of Dr. Smith, situated on the Gaudalupe, about three miles from the Pueblo, was fired and consumed, with all its contents, saving portions of the mutilated remains of the murdered victims.

This is the most horrible tragedy ever committed in the country, and every effort will be made on the part of our citizens to ascertain and ferret out the perpetrators.

On the same evening the store of Baker & Co., near the Madsion House, was entered by burglars, and relieved of a portion of its contents to the amount of $300.

The World's Cold Charity.—Last night about nine o'clock, officer De Wolf found a little boy about seven years of age wandering near Portsmouth square. The little fellow was wet and hungry, and was taken to the station house. His story was, that his name was Alexander Dushane—that his mother was at the mines, and that his father had died the night previous at the hospital; that as soon as this was known, he was turned out from the "St. Charles," where he had been stying, to shift for himself. What St. Charles he meant we were unable to learn.

☞ Atwill & Co., ahead of the times, sent us a few days ago, a fine lithograph of the *Plaza as it should be*. We like it much; and as we are all striving after an ideal good which we do not yet reach, we like this picture even better than we would a view of the *Plaza as it is*.

Court Records.—The proceedings of the Courts on Monday, will be found on the first page of to-day's paper.

SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE OF EXPRESS MAIL STAGES,

HALL & CRANDALL, Proprietors,

ARE now running every morning to San Jose, leaving Breford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to safety, while the drivers, who have served a long apprenticeship from New England to Mexico, make the quickest time and never meet with accidents, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial. n7tf BERFORD & CO.

§1. The quarantine anchorage shall be designated by buoys to be fixed under the direction of the Health Officer, and shall be as near as possible to the Marine Hospital; and every vessel subject to quarantine shall anchor within them.

§2. Every vessel in this act directed to be subject to quarantine, shall immediately on her arrival, proceed to and be anchored at the place there assigned for quarantine, and shall remain there with her officers, passengers and crew, during her quarantine, subject to the examination the Health Officer or Board of Health shall lawfully impose.

§3. All vessels arriving in the bay of San Francisco, from sea, are declared to be subject to such quarantine regulations as are prescribed in this act.

§4. All vessels subject to a regular quarantine shall, if navigated by steam, be subject only to such length of quarantine and other regulations as a majority of the Board of Health shall enjoin.

§5. The quarantine of other vessels shall be limited by the discretion of the Health Officer; but unless under special circumstances and with the sanction of the Board of Health, it shall not exceed the time requisite for a due examination of the vessel and cargo, and a compliance with the regulations of this act.

§6. It shall be the duty of the Health Officer to board every vessel immediately on her arrival, and make strict search and inquiry into the health of the crew and passengers, and into the state and condition of the vessel and cargo; and in the discharge of this duty, he may put all such questions to the persons on board as he shall judge necessary and proper to enable him to ascertain the condition of the vessel, and the quarantine to which she ought to be subjected; and the persons to whom such questions shall be put, shall, if required, answer the same under oath, which the Health Officer is hereby authorized to administer; and the Health Officer shall make a daily report to the Board of Health respecting every vessel that he shall visit, and containing all such information as may enable the Board of Health to determine what measures in respect to such vessel ought to be adopted.

§7. When the regular period of quarantine has expired, if the Health Officer judge the vessel and cargo free from infection, he or the Board of Health shall relieve the vessel from quarantine.

§8. Every vessel subject to quarantine must be designated by a quarantine flag, to be fixed in a conspicuous part of the main shrouds of the vessel, until the expiration of her quarantine.

§9. No lighter shall be employed to load or unload vessels at quarantine, but by the permission of the Health Officer, when they shall be subject to such restrictions as he may impose.

§10. No vessel subject to quarantine shall remove from the quarantine grounds without a written permit from the Health Officer.

§11. It shall be the duty of the Board of Health to provide a building, at a safe distance from the hospital buildings, on the hospital grounds, for all passengers of a vessel or vessels placed under quarantine, who are not diseased, who may choose to go on shore; and those who are unable to maintain themselves shall be provided for by the master, owner or consignee of the vessel, unless in cases where a special agreement to provide for themselves during the voyage has been entered into, in which case they shall be provided for by the Board.

§12. The cost of erecting such buildings shall not exceed twenty thousand dollars, and the weekly charge for pay patients shall not exceed twenty dollars per week; the accommodations shall be of good quality, and such as are usually provided for at boarding houses.

§13. Every master of a vessel subject to quarantine shall proceed with and anchor his vessel at the place assigned for quarantine at the time of his arrival; he shall submit his vessel, cargo and passengers to the examination of the Health Officer, and furnish all necessary information to enable that officer to determine to what length of quarantine and other regulations they ought respectively to be subjected.

§14. Every master of a vessel hailed by a pilot, who shall either give false information to such pilot relative to the condition of his vessel, crew, passengers, or cargo, or refuse to give such information as shall be lawfully required, or land any person from his vessel, or unload or tranship any portion of his cargo before his vessel shall have been visited or examined by the Health Officer; or shall approach with his vessel nearer than the place of quarantine to which he shall be directed, shall be guilty of a misdemeanor, and for each offence shall be fined in a sum not exceeding five hundred dollars; and every person who shall land from any such vessel, or unload or tranship any portion of his lading under the like circumstances, shall be considered guilty of a like offence, and be subject to the like penalty.

§15. Every person who shall willingly or knowingly oppose or obstruct the Health Officers or pilots in performing the duties required of them in this act, shall be guilty of a misdemeanor; the fine for each offence not to exceed one thousand dollars, nor the imprisonment three months.

§16. Every person who shall go on board of, or have communication or intercourse with any vessel at quarantine without the permission of the Health Officer, shall be considered guilty of a misdemeanor, and punished by fine and imprisonment; and such offender shall also be detained at quarantine so long as the Board of Health shall direct, not to exceed twenty days, unless he shall be taken sick of some pestilential or infectious disease.

§17. Whenever the Board of Health, or either of them, shall charge in writing, any pilot with any violation or neglect of duty, the Pilot Commissioners shall suspend such pilot from his office until he shall have entered into a recognizance before some magistrate of the State of California in the sum of five hundred dollars, with sufficient sureties, to appear and answer to the offence charged, at the next term of the District Court of San Francisco.

§18. It shall be the duty of each pilot belonging to the port, to use his utmost endeavors to hail each and every vessel which he shall discover to be entering the Bay of San Francisco from sea, and to demand of the master of every such vessel, whether any person has within ten days died or been sick with a malignant or contagious disease on board.

§19. If either of the above questions shall be answered in the affirmative, the pilot shall immediately give notice to the master of the vessel, that he, his vessel, crew, passengers and cargo, are subject to the examination of the Health Officer, and shall direct him to proceed and anchor his vessel at the quarantine anchorage, there to await the future directions of the Health Officer.

§23. And when the regular period of quarantine shall have expired, if the Health Officer shall judge the vessel clean and free from infection, he shall release the vessel from quarantine, and report the same to the Board of Health, but none of the officers, passengers or crew of any such vessels shall leave the quarantine ground until ten days after the last case of pestilential or infectious fever shall have occurred on board.

§24. The Health Officer, if he shall judge it necessary to prevent infection or contagion, may cause, upon the order of the Board of Health, any bedding or clothing on board a vessel subject to quarantine, or any portion of her cargo that he may deem infected, to be destroyed.

§25. The Health Officer, upon the application of the master of any vessel under quarantine, and his consenting to pay for the maintenance of the offender whilst in custody, may direct to be confined in some suitable place on shore, any sailor or mariner on board of such vessel, who shall have committed an offence punishable by the laws of this State, or of the United States, and who cannot be properly secured for punishment on board of his vessel; such confinement shall continue during the residue of the quarantine of the offender; and the expenses of maintaining the offender shall be charged and paid in the same manner as the expenses of maintaining poor passengers.

§27. Every person who, without the authority of the Health Officer or Board of Health, shall wilfully go within the inclosure of the quarantine grounds shall be considered guilty of a misdemeanor, the fine for each offence not to exceed five hundred dollars, nor the imprisonment thirty days.

§28. Every person who shall go on board of, or have any communication, intercourse, or dealings with any vessel at quarantine, knowing the vessel to be in quarantine, without the permission of the Health Officer, shall be considered guilty of a misdemeanor, punishable by fine not less than one hundred dollars, nor more than five hundred dollars.

§29. Such offender shall also be detained at quarantine so long as the Board of Health shall direct, not exceeding ten days, unless he shall be taken sick of some pestilential or infectious disease.

KLAMATH GOLD MINES,

RIVER and Town—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered as any now in existence in California. The Harbr, (at the upper end of which, this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco, of a perfectly safe entrance. The river is a magnificent stream, and navigable for steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital, cannot enter into a better speculation, or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must, and will undoubtedly be insured a speedy and almost magic growth, and by this time next year, will be a very respectable rival to, (if no totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions, will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners, in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next Spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Schultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. JOHN GRAY, at Messrs. Schultz & Palmer's, or to Mr. T. BUNTING, at the firm of Worthington, Beale & Bunting, on Montgomery street. o16

PROSPECTUS
OF THE
SAN DIEGO HERALD.

> "There the large olive rains its amber store
> In marble fonts, there grain, and flower, and fruit,
> Gush from the earth until the land runs o'er."
> [Byron.

The undersigned beg leave to announce to the public of California generally, and to the English-speaking population of Southern California in particular, that they intend to publish a newspaper at San Diego, under the above title, the first number of which will be issued about the first of January, proximo.

Terms of subscription, $12 per annum. In politics, the San Diego Herald will be *independent*, but not neutral; it will be the organ and engine of no party,—but the impartial advocate of such measures as shall seem best calculated to promote the general welfare of the State, and advance the local interests and property of Southern California, or more immediately of the District of San Diego.

Its design, however, will by no means be to engender any sectional jealousies, or to encourage any measures at variance with the unity and harmony of the State. Its paramount object will be to describe the localities and unfold the resources of "the sunny and luxuriant regions of the South"—to watch over their social and administrative interests,—and to promote their welfare by every legitimate means and influence which the press can employ.

To the American residents in Southern California, the publishers will look for their principal support; and considering the expense of the undertaking and its immediate importance to the local interests of San Diego, it is hoped that the publication will meet with their liberal encouragement. Among the inhabitants, however, of the Northern districts, the *San Diego Herald* will expect to have many readers desirous to obtain authentic information and periodical intelligence from the South.
